## Finish Colors

### Lockers - Color Availability

All standard spray finish colors are available at no extra charge on all Republic locker door and frame assemblies. Locker body components (with the exception of athletic lockers) are furnished with attractive 83 Decorator Tan finish as standard. All components of Heavy Duty Ventilated, All Welded Ventilated and MVP Athletic Lockers are supplied in the same color chosen for the door frame.

Lockers will be provided in Baked Enamel finish unless Powder Coat is specified (10 frame minimum per color). To designate Powder Coat, add the letter "w" to the two-digit color number.

NOTE: Welded lockers are furnished in Powder Coat finish as standard.

### Additional Locker Color Options

The following color options are also available. Please call us or contact your Republic Representative for specific cost information.

- Exposed tops and/or sides painted to match door and frame color
- Locker backs painted to match door and frame color
- All locker body parts painted to match door and frame color
- Special paint film thickness or two-coat finish
- Doors and frames painted different colors (two-tone)\*

\*Minimum order of 50 frames required when two-tone or non-standard colors are selected.

Special Colors: Republic will attempt to match any color submitted, but we cannot assure color match capability in all cases. Our ability to match non-standard colors is limited by the ability to economically formulate a paint mix that is in compliance with Federal and State EPA regulations. You will be advised at the earliest possible date after sample submission as to the availability of a color match.

Color representations shown on front may vary slightly from actual painted product. Color sample plates may be obtained from your Republic Representative.
